## ADDITIONAL INFORMATION

**Hammers:** You may bring your own hammer. The maximum weight is 12 pounds. If you don't bring a hammer we will lend you one for every admission to the mines. There is no charge. Instead we hold your driver's license as a deposit until they are returned. If you lose a hammer there will be a \$15 charge. (We also sell hammers and chisels). In addition to hammers, some miners will bring chisels, pry bars, and buckets.

**Goggles:** Unfortunately we cannot allow you to borrow safety goggles due to NY State Health Laws. We do sell goggles at group discount if you do not have goggles for your group.

**Plastic Bags:** We will provide ziplock bags for your finds for each admission. Some prospectors bring buckets and bags themselves. We also sell pouches.

**Museum:** We do offer an educational museum paper guide if you would like to compliment your group visit. Please inquire. Check out "Randy", our authentic dinosaur skull and The Kingdom of Kimer, our new reading room.

**Retail:** The Gift Shop always has inexpensive items with souvenirs, jewelry and gift items for children of all ages.

**Dress:** Toe covered sturdy shoes are essential. Remember, the mines are surface (above ground) and full of dolomite limestone rock.

**Rain?** At the Herkimer Diamond Mines when it rains, yes, you will get wet but remember that you generally find more! (The rain washes the dirt off the diamonds and they brilliantly shine!)

**What do you get to keep?      Everything that you find!!!!**
